WELCOME TO CARDIOACADEMY!

It is our pleasure to welcome you to this symposium on cardiology which assembles a variety of experts in the field of cardiology from private and academic organisations to deepen the cooperation and coordination of cardiology in European countries and beyond. The aim is to promote the sharing of information amongst specialists, physicians, patients and the community at large.

In addition to the wonderful scientific programme, the symposium offers an ideal environment to meet your fellow colleagues in cardiology, to build relationships and to exchange experiences and ideas from the field. The programme is divided into six specific thematic blocks and features lectures from clinicians and leading cardiology experts discussing and updating their knowledge regarding recent advances, diagnoses and management of cardiological disease.

Our thanks go out to everyone who made this opportunity to meet possible. We sincerely appreciate your participation. I hope you enjoy the symposium, establish new contacts and continue to expand this network of trust and cooperation.

We look forward to welcoming you to Prague.

Prof. Richard Češka, MD, PhD, FACP FEFIM
President of CardioACADEMY

On behalf of the Czech Society of Internal Medicine acting
as the main organising society.
